

ADVANCED ECHOCARDIOGRAPHY

Course Director:

Dr. Manish Bansal

MD DNB (Card) Fellowship Cardiac Imaging
Senior Director – Clinical & Preventive Cardiology,
Medanta Heart Institute

Hands-on training at **state-of-the-art** experimental labs
with advanced **simulation software**

Duration : 02 Days | Timings : 8:30 AM – 6:30 PM

Advanced Echocardiography

The objective of this course is to enable delegates to diagnose & quantify various cardiac pathologies, conduct haemodynamic assessment & integrate echocardiography findings into patient management.

Course Highlights

Proctored learning with case-based discussion on cardiac pathologies

Hands-on training using cutting-edge simulation in strain imaging & 3D echocardiography

Unique experience of having an over-the-shoulder training by renowned faculty

Course Content

Day 1

- Assessment of cardiac chamber functions-
 - Conventional
 - Strain Imaging
 - Quantification with 3D echo
- Left ventricular diastolic function assessment & intracardiac hemodynamics

Day 2

- Quantification of severity of valve lesions-
 - Mitral Valve
 - Pulmonary Valve
 - Tricuspid/Pulmonary Valve
- 3D echocardiography – Basic principles & multiplanar reconstruction
- Stress echocardiography & myocardial perfusion imaging
