

EXTRA CORPOREAL MEMBRANE OXYGENATION

Course Director:

Dr. Jumana Haji

ECMO, MD Anesthesia, MBBS
EMCO Specialist at Fortis Hospital,
Mulund, Mumbai.

Hands-on training at **state-of-the-art** experimental labs
with advanced **simulation software**

Duration :
01 Day

Timings :
8:30 AM – 5:00 PM

Extra Corporeal Membrane Oxygenation

The objective of the course is Gaining knowledge of step-by-step ECMO procedure - from initiation to weaning. Understanding of advanced physiology of Veno Arterial(VA) & Veno Venous(VV) ECMO.

Course Highlights

Proctored step by step learning in high fidelity simulation setting

Demonstration on animal in state-of-the-art Vet Lab

Hands-on practice for insertion of cannulas, circuit surveillance, monitoring, alarm settings, etc. using ECMO equipment

Individual attention and over-the-shoulder training by renowned faculty

Course Content

Hands-on Practice

- Indications and patient selection
- ECMO Types and Physiology
- ECMO Circuit and Components
- Cannulation and Initiation – Tips & Tricks
- ECMO patient monitoring & management
- Weaning
- Considerations and Complications
- How to set up an ECMO program

Lab Session

- Cannulation
- Components, circuitry & monitoring
- Demo & hands-on practice in Vet Lab
