

CARDIAC MAGNETIC RESONANCE IMAGING

Course Director: **Dr. Nitin Burkule**

MD, DM (Card), DNB (Card), FACC
Director of Cardiology - Jupiter,
Thane.

Hands-on training at **state-of-the-art** experimental labs
with advanced **simulation software**

Duration : | Timings :
03 Days | 8:30 AM – 6:30 PM

Cardiac Magnetic Resonance Imaging

This course has been designed to provide intensive hands-on practice in state-of-the-art lab environment, on life-size mannequin simulators under the personal supervision of eminent faculty.

Course Content

Day 1

- Introduction to physics, instrumentation and basic sequences of CMR
- Introduction to planning, acquisition, artifacts and trouble shooting in CMR
- Clinical indications & contra-indications for CMR study
- Introduction to suiteHeart interface
- Introduction to CMR study sequences, Volumetric Analysis (LV/RV/LA)
- Regional wall motion analysis
- Strain Analysis

Day 2

- Introduction to Gadolinium kinetics (first pass perfusion & LGE)
- CMR in cardiomyopathies
- CMR Analysis
 - LGE patterns & quantitative analysis,
 - Viability assessment
 - Phase contrast flow measurement
- CMR Analysis
 - Regurgitation and shunt quantification
 - Inflammatory, infiltrative
 - Hypertrophic Cardiomyopathy
 - Cardiac Mass Assessment

Day 3

- Parametric mapping in CMR
- Stress Perfusion CMR
- CMR Analysis - T1, T2 and T2* mapping in CMR
- Stress perfusion analysis
- Practice cases
